The colors inside me

Green makes me calm
Red reminds me in the
hot sun so I can go outside
and play football with my
brother. Blue reminds me
of the blue sky.

Yellow is the happiness coming from
the sun. Blue is the calmness of the
Ocean water. Lime is the wild outdoors
of the forest. Rainbow is the colors of
creativity.

YOU ARE AN ARTIST

The work does not need to be monumental nor perfect.

There is great value in the learning, practice, and sharing of creativity.

Participatory arts foster a sense of connectivity. Teaching artists “activate the artistry in others”. (-Eric Booth)
